

## Maria Dimou - WLCG-related activities

Name	Documentation	Comment
MW Readiness Working Group chairperson	<a href="https://twiki.cern.ch/LCG/MiddlewareReadiness">https://twiki.cern.ch/LCG/MiddlewareReadiness</a>	All meetings' and jira material is linked from the doc. twiki. A.Manzi is a natural candidate for this role. As per the 2016-11-02 WG decision there will no more be regular meetings, so all the work can be done in jira with the Volunteer Sites as the MW products shortlisted get released.
SCOD Duty	<a href="https://twiki.cern.ch/LCG/ScodRota">https://twiki.cern.ch/LCG/ScodRota</a>	The wlcg-scod e-group contains more people than the active SCODs. As one can see here there have been several generations of SCODs who moved on
WLCG Operations co-chair	<a href="https://twiki.cern.ch/LCG/InternalPlanning">https://twiki.cern.ch/LCG/InternalPlanning</a>	In principle, 4 people remain as co-chairs (Julia, Maarten, Alessandra & Pepe). It is important to identify the meeting themes and follow-up see tasks here. Many tens of e-groups and indico reservations' ownership to change.
GGUS dev. team	<a href="https://twiki.cern.ch/LCG/GgusOperations">https://twiki.cern.ch/LCG/GgusOperations</a>	The service and the GGUS-SNOW interface is stable. Dev. requests are about 4 times fewer now than in 2012 see jira tracker. Another member of the Ops Coord or SCOD teams could easily do this or another WLCG site. Many tens of e-groups, related to GGUS Support Units and notifications
WLCG Catch-all RA	<a href="http://wlcg.web.cern.ch/getting-started/certificates">http://wlcg.web.cern.ch/getting-started/certificates</a>	Following a campaign with LHC experiments and OSG to recommend the use of the CERN CA. There is hardly any country left, in our days, with no national CA. Ecuador (4 CMS students) was the only case in 2016. The email screenshot attached is the weekly report where the RA has to investigate, if there are requests by CERN users. The documentation is up-to-date. M.Dimou organised event in August about FNAL, and OSG in general, certification plans. Hannah is a good candidate. She attended the event.
